

Join a MESA Invention Club Today!

- Use Invention to Solve Problems
- Explore Invention and Engineering as Career Paths
- Open to All Experience Levels

Learn more at: www.Oregonmesa.org

Fill this form out virtually in English or Spanish at: <https://tinyurl.com/MESA-Invention-Club>

When: MESA Invention Clubs will meet from November-May for 1-1.5 hours each week! We also host special events like Family Nights, College and Career Visits, and competitions for you to share your ideas and learn about science, technology, engineering, and math fields!

In a MESA Invention Club, you will:

- Connect with friends
- Develop skills to design, prototype, build, and present inventions
- Solve a problem for a client in your community
- Create an invention to help someone you care about
- Work in a team
- Talk with STEM professionals about what their job is like
- Pitch your ideas!

What if I don't know anything about invention or engineering?

- That's perfect! No experience necessary. All middle and high school students are encouraged to apply, regardless of background
- Students must qualify for free or reduced lunch to be eligible to participate.

Questions? Contact Sarah at whitess@linnbenton.edu

Submit an interest form today so we can send you the application!
